Summary

Full Stack Developer specializing in MERN Stack development with experience designing scalable front end architecture and back end web applications. Skilled in building responsive web applications using React.js, Node.js, Express.js, and MongoDB with strong focus on REST API development, cross-platform optimization, authentication systems, and performance optimization. Proficient in JavaScript frameworks, frontend development, backend services, database management, and modern software engineering workflows.

Education

Indian Institute of Information Technology Senapati, Manipur Sep 2024 – Jun 2028
Bachelor of Technology in Computer Science and Engineering *CGPA: 8.75/10*

- Ranked among the top 3% of the batch

Shyam Sundar Saraswati Inter College, Uttar Pradesh 2023
Class XII *Percentage: 86.4%*

Shyam Sundar Saraswati Inter College, Uttar Pradesh 2021
Class X *Percentage: 86.6%*

Technical Skills

Languages: C++, JavaScript, Python, SQL
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design
Backend: Node.js, Express.js, REST APIs, JWT Authentication, Backend Web Applications
Database: MongoDB, MySQL, Database Management
Concepts: Front End Architecture, Cross-Platform Optimization, API Development, Authentication & Authorization
State Management: Context API
Tools & Platforms: Git, GitHub, VS Code, Postman, Jest, Vercel, Render
Core CS Subjects: Data Structures & Algorithms, DBMS, Operating Systems, OOPs, Computer Networks

Soft Skills: Problem Solving, Team Collaboration, Communication, Leadership, Project Management, Adaptability, Time Management

Experience

Front-End Development Intern Dec 2025 – Feb 2026
Uptricks Services Pvt. Ltd. *Remote*

- Developed responsive web applications using React.js, Tailwind CSS, JavaScript, and Vite with focus on modern front end architecture and UI/UX optimization.
- Built and deployed the **PlanIt Instant Event Booking Platform** featuring authentication flow, category-based filtering, booking workflows, and responsive web interfaces.
- Ensured responsiveness of applications across desktop, tablet, and mobile devices through optimized frontend architecture.
- Developed reusable React components and interactive user interfaces improving accessibility and cross-platform optimization.
- Designed frontend web applications with dark mode support, animations, responsive layouts, and protected client-side routing.
- Built the **FloraVision** frontend application using React.js and Tailwind CSS with reusable component architecture and modern UI design.
- Collaborated using Git and GitHub workflows while managing frontend project modules in team-based development environments.

Full Stack Developer Intern Dec 2025 – Jan 2026
Enginow *Remote*

- Developed scalable full stack web applications using React.js, Node.js, Express.js, and MongoDB with secure backend services and frontend architecture.

- Designed and developed RESTful APIs for scalable web applications with secure authentication and database integration.
- Built and deployed a production-ready **E-Learning Platform** with JWT authentication, role-based authorization, Stripe payment integration, and lesson progress tracking.
- Implemented protected frontend and backend routes using HTTP-only cookie authentication and middleware-based access control.
- Engineered backend architecture using Express.js, MongoDB Atlas, Mongoose, Zod validation, centralized error handling, and MVC design patterns.
- Developed the **TaskManager MERN Application** featuring task CRUD operations, filtering systems, drag-and-drop functionality, and responsive dashboard interfaces.
- Managed deployment workflows using Vercel and Render for production-ready web application hosting.

Projects

E-Learning Platform (Full Stack MERN) Dec 2025 – Present

React.js, Node.js, Express.js, MongoDB, Stripe, JWT

- Developed a scalable full stack web application with JWT authentication, role-based authorization, course enrollment workflows, and lesson progress tracking.
- Implemented protected frontend/backend routes, Stripe payment integration, REST API development, and responsive dashboard interfaces.
- Designed backend services and database architecture using Express.js, MongoDB Atlas, Mongoose, Zod validation, and MVC design patterns.
- **Frontend Live:** Live Demo
- **Backend API:** Backend API
- **GitHub (Frontend):** GitHub Repository
- **GitHub (Backend):** GitHub Repository

TaskManager — Full Stack MERN Application Nov 2025 – Dec 2025

React.js, Node.js, Express.js, MongoDB

- Built a production-ready task management web application with JWT authentication, CRUD operations, filtering systems, and priority management features.
- Implemented responsive dashboard UI with task search, sorting, due-date alerts, drag-and-drop functionality, and protected routes.
- Integrated MongoDB Atlas database, REST APIs, and deployment workflows using Render and Vercel.
- **Live Demo:** Live Demo
- **Backend API:** Backend API
- **GitHub:** GitHub Repository

FloraVision — Modern Plant Store Frontend Sep 2025 – Oct 2025

React.js, Tailwind CSS, Vite

- Built a responsive frontend web application using React.js and Tailwind CSS with reusable component architecture and optimized UI performance.
- Implemented responsive grids, reusable UI components, animations, and modern frontend development practices.
- Optimized production deployment using Vercel while maintaining scalable frontend architecture and responsiveness of applications.
- **Live Demo:** Live Demo
- **GitHub:** GitHub Repository

Zenthrixa — Scalable MERN E-Commerce Platform Present

MongoDB, Express.js, React.js, Node.js

- Currently developing a scalable full stack e-commerce web application with authentication, product management, payment integration, and admin dashboard functionality.
- Building optimized REST APIs, responsive frontend interfaces, backend web applications, and scalable database architecture following MERN development practices.
- **GitHub:** GitHub Repository

Certifications

- **Competitive Programming Workshop — GeeksforGeeks** (View Certificate)
- **ET-AI Hackathon 2026 — Semi Finalist** (View Certificate)
- **Open Source Connect Global 2026 — Contributor** (View Certificate)
- **Full Stack Developer Internship — Enginow** (View Certificate)
- **Front-End Development Internship — Uptricks Services Pvt. Ltd.** (View Certificate)

Achievements

- Ranked among the **Top 3%** of the B.Tech CSE batch at IIIT Senapati, Manipur based on academic performance.
- Solved **200+ DSA problems** strengthening problem-solving, algorithmic thinking, and optimization skills.
- Selected as a **Contributor** in **Open Source Connect Global 2026**, contributing to collaborative open-source development projects.
- Participated in the **TechSprint Manipur 1.0 AI Hackathon**, gaining experience in team-based AI problem solving and web application development.
- Achieved **Global Rank 101** in the **AI-Thon Global Coding Conquest** organized by Enginow and Unstop.
- Emerged as a **Semi-Finalist** in the **ET-AI Hackathon 2026** organized by The Economic Times.
- Successfully completed a technical workshop on **Competitive Programming** conducted by GeeksforGeeks.
